## Mission Statement

### Our Mission: Vision with Results

*Minvent Solutions is committed to providing safe, innovative, reliable, cost-effective technologies and solutions for Mining, Industrial & Environmental Projects. Highly competent and professional people and systems that will improve our client's productivity and safety performance.*

## Integrated Business Management System

At Minvent Solutions we have aligned ourselves with international safety standards and as such have commenced the implementation process of an Integrated Business Management System encompassing the following certifications:

- ISO 9001:2000 Quality Management System
- AS/NZS 4801:2001 Safety Management System
- ISO 14001:2004 Environmental Management System
- AS/NZS 4360:2004 Risk Management System

The principles which the Integrated Business Management System is based upon are:

1. Customer focus
2. Leadership
3. Involvement of People
4. Process Approach
5. System Approach to Management
6. Continual Improvement
7. Factual Approach to Decision Making
8. Mutually Beneficial Supplier Relationships
